

Watch out for the following mistakes!

1. The ~~start~~ was abandoned / aborted. TAKE-OFF
2. ~~Before~~ the DC-9 in the sequence there was a 4-engine a/c. = There was a 4-engine a/c AHEAD OF the DC-9. Or There was a 4-engine a/c PRECEDING the DC-9.
3. ATC ~~ordered~~ the crew to ~~get into a proper position~~. = INSTRUCTED / LINE UP
4. While the damaged a/c was taxiing ~~to the~~ maintenance. = FOR maintenance // TO the maintenance base
5. ~~Despite there~~ were no visible flames... = DESPITE THE FACT THAT
6. Finally DC-9 ~~got permission to takeoff~~. = WAS CLEARED FOR TAKE-OFF
7. The captain spotted a lot of fumes coming from the ~~following / previous~~ aircraft's APU. = PRECEDING / AHEAD
8. While one airplane was following the ~~another~~ one. = OTHER
9. If the ATC ~~wouldn't have told~~ the pilots in the first plane ~~that they should vacated~~ the active runway, the second a/c ~~wouldn't departure~~ on time. = HADN'T TOLD (INSTRUCTED) // TO VACATE // WOULDN'T HAVE DEPARTED
