

A JOB INTERVIEW

1. Have you ever attended any job interview?
2. If so, what was it like?
3. Did you have it in Polish or English language?
4. Did you find the interview easy or challenging? Why?
5. What do you think is the most common lie on resumes and why applicants get caught?

TASK. Make a list of 20 most common job interview questions and a list of (at least) 10 unusual (so-called oddball) questions popping up during job interviews. In a while, you will be asked to present some of them in order to create a general list of usual and tricky job interview questions.
