

Ditching in the Hudson

Watch the video and answer the questions:

1. Which airport do they take off from?
2. How much fuel do they have?
3. How do the Captain and the First Officer feel about flying?
4. What does the Captain report about the engines?
5. What does the Captain attempt to do after losing both engines?
6. How do they manage to bring back electricity and other systems?
7. What kind of documentation do they refer to in order to find the solution to the problem?
8. What alternate airports are suggested?
